The Science of the Total Environment 157 (1994) 413–418

the Science of the Total Environment

Subject index

Volume 157 (1994)

Aerosol; Particle deposition; Tree canopies **157**, 1

Antlers; Strontium-90; Red deer; Austria; Environmental contamination **157**, 323

Austria; Strontium-90; Antlers; Red deer; Environmental contamination **157**, 323

Bioavailability; Radiocaesium; Intake; Ruminants; Forest **157**, 289

Bioavailability; Radionuclide; Soil solution; Organic compounds **157**, 267

Bioindicators; Bryophytes; Italy; Radioecology **157**, 35

Biological retention; Radiocaesium; Boreal forest; Mycorrhizal **157**, 207

Boreal forest; Radiocaesium; Mycorrhizal; Biological retention **157**, 207

Boundary Layer; Dry deposition; Forest canopy; Turbulence **157**, 29

Bryophytes; Bioindicators; Italy; Radioecology **157**, 35

Buried waste; Transuranic element uptake; Forest vegetation **157**, 115

Caesium-137; Herbivory; Moose; Vole; Litterfall; Transfer **157**, 301

Cesium; Nuclear explosion; Chernobyl; Forest ecosystem; Strontium **157**, 93

Cesium; Potassium; Forest plants; Transfer equations; K_d-value **157**, 163

Cesium radionuclides; Roe deer contamination; Spruce forests; Transfer; Organic matter; Fertilizer **157**, 189

Cesium-134; Mushroom; Plant; Soil; Cesium-137; Potassium-40 **157**, 197

Cesium-137; Kyshtym accident; Environmental contamination; Strontium-90 **157**, 147

Cesium-137; Mushroom; Plant; Soil; Cesium-134; Potassium-40 **157**, 197

Chernobyl; ^{137}Cs; Fallout; Industry; Sweden **157**, 339

Chernobyl; Histology; Pine trees; Radiation doses; Effects; Radioactivity **157**, 387

Chernobyl; Nuclear explosion; Forest ecosystem; Cesium; Strontium **157**, 93

Chernobyl; Radiocesium; Mushrooms; Game **157**, 227

Chernobyl; Radionuclides; Lichens; Thalli **157**, 25

Chernobyl nuclear power plant; Kiev; Suburban forests; Radioactive contamination **157**, 333

Clay minerals; Radiocesium; Forest soil; Cs availability; Cs fixation; Humic acids **157**, 261

Coniferous forest; Fungal spores; Sheep; Radiocaesium **157**, 317

Countermeasures; Radionuclides; Forest ecosystems **157**, 399

^{137}Cs; Chernobyl; Fallout; Industry; Sweden **157**, 339

^{137}Cs; Forest ecosystems; Immobilization; Recycling; Microbial biomass; Litterbag; Invertebrates; FE-method **157**, 249

^{137}Cs; Plants; Forest ecosystem; Radioecology **157**, 73

Cs availability; Radiocesium; Forest soil; Cs fixation; Clay minerals; Humic acids **157**, 261

Cs fixation; Radiocesium; Forest soil; Cs availability; Clay minerals; Humic acids **157**, 261

Cuticle thickness; Radionuclide deposition; Radionuclide incorporation; Sequential extraction; Holm oak; Leaf surface **157**, 7

Cycling; Strontium-90; Forest **157**, 107

Deposition of Cs-137; Long-term transfer; Forest ecosystem; Radioecological modelling; Uncertainty analysis **157**, 139

Distribution; Radiocesium; Forest; *Pinus silvestris*; Ecosystem **157**, 125

Dry deposition; Forest canopy; Boundary Layer; Turbulence **157**, 29

Dry deposition; Forest canopy; Wind tunnel **157**, 17

Eastern Urals; Nuclear accident; ^{90}Sr; Forest; Transfer; Model **157**, 83

Ecosystem; Forest; Radioecology **157**, 181

Ecosystem; Radiocesium; Distribution; Forest; *Pinus silvestris* **157**, 125

Effects; Histology; Pine trees; Radiation doses; Radioactivity; Chernobyl **157**, 387

Element cycling; Radiocesium; Forest **157**, 59

Environmental contamination; Kyshtym accident; Strontium-90; Cesium-137 **157**, 147

Environmental contamination; Strontium-90; Antlers; Red deer; Austria **157**, 323

Fallout; ^{137}Cs; Chernobyl; Industry; Sweden **157**, 339

FE-method; ^{137}Cs; Forest ecosystems; Immobilization; Recycling; Microbial biomass; Litterbag; Invertebrates **157**, 249

Fertilizer; Cesium radionuclides; Roe deer contamination; Spruce forests; Transfer; Organic matter **157**, 189

Forest; Eastern Urals; Nuclear accident; ^{90}Sr; Transfer; Model **157**, 83

Forest; Ecosystem; Radioecology **157**, 181

Forest; Radioactive contamination; Radionuclides migration; Radioecological effects **157**, 45

Forest; Radiocaesium; Intake; Bioavailability; Ruminants **157**, 289

Forest; Radiocaesium; Migration soil **157**, 257

Forest; Radiocesium; Distribution; *Pinus silvestris*; Ecosystem **157**, 125

Forest; Radiocesium; Element cycling **157**, 59

Forest; Radioecology; Gamma Source; Radiation effects; Ionizing radiation **157**, 371

Forest; Radionuclide; Residence time; Modeling Risk **157**, 153

Forest; Strontium-90; Cycling **157**, 107

Forest biogeocenosis; Irradiation; Model; Response reactions; Radiation effects; Nuclear power plant **157**, 357

Forest canopy; Dry deposition; Boundary Layer; Turbulence **157**, 29

Forest canopy; Dry deposition; Wind tunnel **157**, 17

Forest ecosystem; ^{137}Cs; Plants; Radioecology **157**, 73

Forest ecosystem; Deposition of Cs-137; Long-term transfer; Radioecological modelling; Uncertainty analysis **157**, 139

Forest ecosystem; Nuclear explosion; Chernobyl; Cesium; Strontium **157**, 93

Forest ecosystem; Radiocesium; Soil; Plants; Transfer parameters **157**, 133

Forest ecosystems; ^{137}Cs; Immobilization; Recycling; Microbial biomass; Litterbag; Invertebrates; FE-method **157**, 249

Forest ecosystems; Countermeasures; Radionuclides **157**, 399

Forest plants; Cesium; Potassium; Transfer equations; K_d-value **157**, 163

Forest soil; Radiocesium; Cs availability; Cs fixation; Clay minerals; Humic acids **157**, 261

Forest remediation; Nuclear accident; Defoliants; Radionuclides **157**, 407

Forest vegetation; Transuranic element uptake; Buried waste **157**, 115

Fungal spores; Sheep; Coniferous forest; Radiocaesium **157**, 317

Game; Radiocesium; Mushrooms; Chernobyl **157**, 227

Gamma Source; Radioecology; Forest; Radiation effects; Ionizing radiation **157**, 371

Herbivory; Caesium-137; Moose; Vole; Litterfall; Transfer **157**, 301

Histology; Pine trees; Radiation doses; Effects; Radioactivity; Chernobyl **157**, 387

Holm oak; Radionuclide deposition; Radionuclide incorporation; Sequential extraction; Cuticle thickness; Leaf surface **157**, 7

Humic acids; Radiocesium; Forest soil; Cs availability; Cs fixation; Clay minerals **157**, 261

Immobilization; ^{137}Cs; Forest ecosystems; Recycling; Microbial biomass; Litterbag; Invertebrates; FE-method **157**, 249

Industry; ^{137}Cs; Chernobyl; Fallout; Sweden **157**, 339

Ingestion dose; Radioactive contamination; Radiocesium; Mushrooms **157**, 217

Injury; Irradiation, Red forest; Regeneration; Recultivation **157**, 383

Intake; Radiocaesium; Bioavailability; Ruminants; Forest **157**, 289

Invertebrates; ^{137}Cs; Forest ecosystems; Immobilization; Recycling; Microbial biomass; Litterbag; FE-method **157**, 249

Ionizing radiation; Radioecology; Forest; Gamma Source; Radiation effects **157**, 371

Irradiation; Forest biogeocenosis; Model; Response reactions, Radiation effects; Nuclear power plant **157**, 357

Irradiation, Red forest; Injury; Regeneration; Recultivation **157**, 383

Italy; Bioindicators; Bryophytes; Radioecology **157**, 35

K_d-value; Cesium; Potassium; Forest plants; Transfer equations **157**, 163

Kiev; Suburban forests; Chernobyl nuclear power plant; Radioactive contamination **157**, 333

Kyshtym accident; Environmental contamination; Strontium-90; Cesium-137 **157**, 147

Leaf surface; Radionuclide deposition; Radionuclide incorporation; Sequential extraction; Holm oak; Cuticle thickness **157**, 7

Lichens; Radionuclides; Thalli; Chernobyl **157**, 25

Litter decomposition; Radionuclide migration; Mediterranean forest; Soil faunal activity; Potassium **157**, 231

Litterbag; ^{137}Cs; Forest ecosystems; Immobilization; Recycling; Microbial biomass; Invertebrates; FE-method **157**, 249

Litterfall; Herbivory; Caesium-137; Moose; Vole; Transfer **157**, 301

Long-term transfer; Deposition of Cs-137; Forest ecosystem; Radioecological modelling; Uncertainty analysis **157**, 139

Lysimeter; Radionuclide; Migration; Soil **157**, 285

Mediterranean forest; Radionuclide migration; Litter decomposition; Soil faunal activity; Potassium **157**, 231

Microbial biomass; ^{137}Cs; Forest ecosystems; Immobilization; Recycling; Litterbag; Invertebrates; FE-method **157**, 249

Migration; Radionuclide; Soil; Lysimeter **157**, 285

Migration soil; Radiocaesium; Forest **157**, 257

Model; Eastern Urals; Nuclear accident; ^{90}Sr; Forest; Transfer **157**, 83

Model; Forest biogeocenosis; Irradiation; Response reactions; Radiation effects; Nuclear power plant **157**, 357

Modeling Risk; Forest; Radionuclide; Residence time **157**, 153

Moose; Herbivory; Caesium-137; Vole; Litterfall; Transfer **157**, 301

Moose; Radiocesium; Roe deer; Transfer to man **157**, 309

Mycorrhizal; Radiocaesium; Boreal forest; Biological retention **157**, 207

Mushroom; Plant; Soil; Cesium-137; Cesium-134; Potassium-40 **157**, 197

Mushrooms; Radioactive contamination; Radiocesium; Ingestion dose **157**, 217

Mushrooms; Radiocesium; Game; Chernobyl **157**, 227

Nuclear accident; Forest remediation; Defoliants; Radionuclides **157**, 407

Nuclear accident; Eastern Urals; ^{90}Sr; Forest; Transfer; Model **157**, 83

Nuclear explosion; Chernobyl; Forest ecosystem; Cesium; Strontium **157**, 93

Nuclear power plant; Forest biogeocenosis; Irradiation; Model; Response reactions; Radiation effects **157**, 357

Nutrition; Pine; *Pinus sylvestris*; *Picea abies*; Spruce; Radiocesium **157**, 171

Organic compounds; Radionuclide; Soil solution; Bioavailability **157**, 267

Organic matter; Cesium radionuclides; Roe deer contamination; Spruce forests; Transfer; Fertilizer **157**, 189

Organic soils; Radiocesium; Sorption-desorption **157**, 275

Particle deposition; Aerosol; Tree canopies **157**, 1

Picea abies; Nutrition; Pine; *Pinus sylvestris*; Spruce; Radiocesium **157**, 171

Pine; Nutrition; *Pinus sylvestris*; *Picea abies*; Spruce; Radiocesium **157**, 171

Pine trees; Histology; Radiation doses; Effects; Radioactivity; Chernobyl **157**, 387

Pinus silvestris; Radiocesium; Distribution; Forest; Ecosystem **157**, 125

Pinus sylvestris; Nutrition; Pine; *Picea abies*; Spruce; Radiocesium **157**, 171

Plant; Mushroom; Soil; Cesium-137; Cesium-134; Potassium-40 **157**, 197

Plants; ^{137}Cs; Forest ecosystem; Radioecology **157**, 73

Plants; Radiocesium; Soil; Forest ecosystem; Transfer parameters **157**, 133

Potassium; Cesium; Forest plants; Transfer equations; K_d-value **157**, 163

Potassium; Radionuclide migration; Mediterranean forest; Litter decomposition; Soil faunal activity **157**, 231

Potassium-40; Mushroom; Plant; Soil; Cesium-137; Cesium-134 **157**, 197

Radiation doses; Histology; Pine trees; Effects; Radioactivity; Chernobyl **157**, 387

Radiation effects; Forest biogeocenosis; Irradiation; Model; Response reactions; Nuclear power plant **157**, 357

Radiation effects; Radioecology; Forest; Gamma Source; Ionizing radiation **157**, 371

Radioactive contamination; Forest; Radionuclides migration; Radioecological effects **157**, 45

Radioactive contamination; Kiev; Suburban forests; Chernobyl nuclear power plant **157**, 333

Radioactive contamination; Radiocesium; Mushrooms; Ingestion dose **157**, 217

Radioactivity; Histology; Pine trees; Radiation doses; Effects; Chernobyl **157**, 387

Radiocaesium; Boreal forest; Mycorrhizal; Biological retention **157**, 207

Radiocaesium; Fungal spores; Sheep; Coniferous forest **157**, 317

Radiocaesium; Intake; Bioavailability; Ruminants; Forest **157**, 289

Radiocaesium; Migration soil; Forest **157**, 257

Radiocesium; Distribution; Forest; *Pinus silvestris*; Ecosystem **157**, 125

Radiocesium; Element cycling; Forest **157**, 59

Radiocesium; Forest soil; Cs availability; Cs fixation; Clay minerals; Humic acids **157**, 261

Radiocesium; Moose; Roe deer; Transfer to man **157**, 309

Radiocesium; Mushrooms; Game; Chernobyl **157**, 227

Radiocesium; Nutrition; Pine; *Pinus sylvestris*; *Picea abies*; Spruce **157**, 171

Radiocesium; Radioactive contamination; Mushrooms; Ingestion dose **157**, 217

Radiocesium; Soil; Plants; Forest ecosystem; Transfer parameters **157**, 133

Radiocesium; Soils; Sorption reversibility **157**, 239

Radiocesium; Sorption-desorption; Organic soils **157**, 275

Radioecological effects; Forest; Radioactive contamination; Radionuclides migration **157**, 45

Radioecological modelling; Deposition of Cs-137; Long-term transfer; Forest ecosystem; Uncertainty analysis **157**, 139

Radioecology; ^{137}Cs; Plants; Forest ecosystem **157**, 73

Radioecology; Bioindicators; Bryophytes; Italy **157**, 35

Radioecology; Ecosystem; Forest **157**, 181

Radioecology; Forest; Gamma Source; Radiation effects; Ionizing radiation **157**, 371

Radionuclide; Forest; Residence time; Modeling Risk **157**, 153

Radionuclide; Migration; Soil; Lysimeter **157**, 285

Radionuclide; Soil solution; Organic compounds; Bioavailability **157**, 267

Radionuclide deposition; Radionuclide incorporation; Sequential extraction; Holm oak; Cuticle thickness; Leaf surface **157**, 7

Radionuclide incorporation; Radionuclide deposition; Sequential extraction; Holm oak; Cuticle thickness; Leaf surface **157**, 7

Radionuclide migration; Mediterranean forest; Litter decomposition; Soil faunal activity; Potassium **157**, 231

Radionuclides; Countermeasures; Forest ecosystems **157**, 399

Radionuclides; Lichens; Thalli; Chernobyl **157**, 25

Radionuclides migration; Forest; Radioactive contamination; Radioecological effects **157**, 45

Recultivation; Irradiation, Red forest; Injury; Regeneration **157**, 383

Recycling; ^{137}Cs; Forest ecosystems; Immobilization; Microbial biomass; Litterbag; Invertebrates; FE-method **157**, 249

Transuranic element uptake; Forest vegetation; Buried waste **157**, 115

Tree canopies; Aerosol; Particle deposition **157**, 1

Turbulence; Dry deposition; Forest canopy; Boundary Layer **157**, 29

Uncertainty analysis; Deposition of Cs-137; Long-term transfer; Forest ecosystem; Radioecological modelling **157**, 139

Vole; Herbivory; Caesium-137; Moose; Litterfall; Transfer **157**, 301

Wind tunnel; Forest canopy; Dry deposition **157**, 17
